

IMPORTANT NOTICE: Data Security Incident

HIPAA Substitute Notice

TriZetto Provider Solutions (TPS) is providing notice of a data security incident that may have affected certain protected health information.

What Happened

On October 2, 2025, TPS discovered unauthorized access to a web portal used by healthcare providers. The investigation determined that beginning in November 2024, an unauthorized actor accessed records related to insurance eligibility verification transactions.

Information Potentially Involved

The affected data may have included: name, address, date of birth, health insurance member number, provider name, health insurer name, and other health insurance information. For some individuals, Social Security numbers may have been involved. **No payment card or bank account information was affected.**

What We Are Doing

TPS engaged external cybersecurity experts, notified law enforcement, and has eliminated the threat to its environment. Affected individuals are being offered complimentary credit monitoring and identity protection services through Kroll.
